Monthly Market Commentary

The equity markets extended its rebound into May. Investors appeared to be more optimistic and shifted focus on how countries would begin to relax lockdown measures and its affect on local economies. Total nonfarm payroll employment rose by 2.5 million in May and the unemployment rate declined to 13.3%. Inflation, as measured by the Consumer Price Index, declined 0.1% in May. For the first quarter 2020, the second estimate of U.S. Real GDP released by the Bureau of Economic Analysis decreased at an annual rate of 5.0%.

Similar to the U.S., many developed international economies reported fewer COVID-19 cases; however, emerging markets, like India and Brazil, continued to show an increase in cases, putting pressure on their economies. The European Union announced its recovery plan, which included borrowing EUR 750 billion in financial markets that is to be funded by EU budgetary resources. The European Central Bank ought EUR 125 billion in government and corporate bonds.

The Money Market Portfolio returned +0.0% during May.
